The 200 CID engine is part of Ford's Thriftpower line. The 1965 version of this engine had several improvements over its 1963 version. It featured seven main bearings and five freeze plugs. The result is a stable inline-six engine. Though the Mustang only used this engine through 1971, it remained in production through 1984.

I have no experience with the current 5.0 or 3.5, but if this is truly the best engine then that's a pretty p poor job by Ford. Clearly Chevrolet isn't doing any better in this department as the 5.3 is severely undertuned, and the 6.2, which should be available across the board at a small up charge is being treated like hens teeth.
