The textbook market has been cornered by a few big publishers. They do not do a very good job. Combined with the stupid common core curriculum, kids are really suffering. If your school uses this book, I feel sorry for your kids. If you just want a book for homeschool, try other books like Singapore Math. They know how to educate math.

Science curriculum doesn't have to be expensive. A good portion of what we've used for science over the years have been free resources! I remember science being incredibly dry and boring in school and I want my children ' s science experience to be anything but boring. Because of that, I seek out resources that offer learning through living books and lots and lots of experiments.
